

## CASE STUDY - Bespoke Staircase – Tonbridge, Kent

Our customer lived in Tonbridge, Kent and required a feature staircase for their refurbishment project. The client was creating a property with a very minimalist interior, with a very open feel and wanted a staircase that allowed the passage of light. Based on their measurements we designed a bespoke half turned staircase with toughened glass treads and glass infill panels. The handrail, stringers and centre column were powder coated to a colour selected by our client.
