

CASE STUDY - WF Staircase – Hedge End, Hampshire

In their dream new build home, the client in this case study was determined to make the staircase a stunning feature of the property – located near the front door, it would be the first thing a visitor would see upon entering the house. The WF staircase provided here in Oak, managed to both create a vivid impression in the area, whilst also not blocking out too much of the light from the rest of the room. Glass panels in the landing balustrade really rounded off this contemporary feature staircase.
