

Genius Domestic Spiral Staircase

The Genius is a semi bespoke spiral staircase combining steel and timber. The treads are 40mm beechwood and the centre column is made up of steel barrels. There is a beechwood handrail and two options of balustrade. Style 010 consists of horizontal stainless steel wire and style 020 has 20mm vertical square spindles. Landing balustrade and riser bars kits can be purchased. Also available as a square spiral – perfect for a corner.
