

Kloe Domestic Spiral Staircase

The Kloe is a secondary domestic off-the-shelf Kit staircase. As standard it arrives with 12 treads plus a triangular top platform to meet floor to floor heights of up to 2860mm. Additional treads can be purchased to achieve greater heights. The centre column is made up of powder coated steel barrels and the treads are 42mm beechwood.

The balustrade on this model is made up of Horizontal steel wire. **Please note this balustrade does not conform with UK**
