

Model 74 Domestic Spiral Staircase

A made to measure spiral available in a variety of timbers. The centre column is constructed by a series of interlocking stainless steel barrels. The balustrade is constructed with either horizontal stainless bars, mesh infill panels or curved acrylic panels. The handrail is available in stainless steel or timber. The model 74 can be used as a main or as a secondary domestic staircase providing the correct diameter is selected. Stainless steel riser bars are available to reduce the gap between the treads.
