

WF Style Bespoke Domestic Staircase

The WF staircase is a fully bespoke timber staircase. It is our most open timber stair with only one wall stringer in place. This creates a cantilevered tread effect with the treads supported by a extra deep handrail on the internal side. The treads 'hang' in the air supported by steel spindles that crew up into the handrail. The WF is available as a straight flight, quarter turn or half turn depending on the location of walls.
