

## Model 500 Bespoke Domestic Staircase

Our model 500 custom made modular staircase is constructed steel stringers to either side of the treads. The stringer can be in a zig-zag shape, or steel plate stringer 200 x 8mm. The treads are in timber and the balustrade consists of horizontal stainless bars, vertical stainless spindles or glass infill panels. Can be manufactured as a straight flight, quarter turn or half turn.
