

COMPLETE STAIR SYSTEMS

MODEL 500 HALF TURN STAIRCASE

Our model 500 custom made modular staircase is constructed steel stringers to either side of the treads. The 10mm thick stringers are formed in various shapes and powder coated or supplied in stainless steel. The half turn is formed with winding treads or 2 square platforms. The treads are in timber (with beech and oak most popular) and the balustrade consists of 17.5mm laminated glass bolted with clamps to the side of the stair. A handrail in stainless steel or timber can be placed on the top of the glass.

Beech

Oak

Walnut

Ash

Steel Powder Coated to any RAL

The **Model 500** staircase can also be supplied as a straight flight or as a quarter turn staircase.

The stair can be constructed in any hardwood with those shown above the most popular. We have a full flight 500 in our showroom in Romsey, so call 01794 522444 to book an appointment to view.
